Posting Journal Entries to ADJ-17:

JUN-17 (the 12th month) will close on June 30. The TWS activity received on June 30 will be backposted to JUN-17 on July 1. Only certain Investment Services-related activities will be backposted to JUN-17. Instead, the concept of a 13th month—ADJ-17—remains. ADJ-17 will run from July 1 to July 15. However, end users will only have direct access to ADJ-17 from July 1 to July 10.

DO’s and DON’Ts of Proper 13th Month Journal Entries posted through July 10, 2017:

DO’s:

1. Use proper naming convention:
   - ADJ17.xxxx.zzzz.mm/dd/yy.nn
   - where xxxx is the user’s org, zzz is the user’s initials, mm/dd/yy is the date the batch is created and nn is the user’s sequential batch number of the day.

2. Select the period ‘ADJ-17’ from the dropdown selection {as is illustrated below for MAY-14}.

3. Enter into BEN Financials by 8PM on July 10.

4. Please call the Comptroller’s department with any questions.

DON’Ts:

1. Don’t use a control total of ‘1’ on either the journal entry or batch unless you don’t want the entry to post overnight.

2. If you intend to reverse a journal entry but want to keep the original entry in FY17, mark the entry to reverse in JUL-17 not ADJ-17.
Receipt Accrual Process:

As a part of the year-end closing process, the Comptroller’s Office will run the Receipt Accrual program. This program is run annually to book an accrual entry to the general ledger to account for merchandise or services provided to the University on or before June 30, 2017, that has not yet been billed by the vendor. The program looks at each line item for all purchase orders that are not finally closed (POs), then compares the quantity received (input by PO Buyer) to the quantity billed (input by Accounts Payable) for each PO distribution. If the quantity received exceeds the quantity billed, the difference is multiplied by the unit price on the PO line and posted as a charge in JUN-17 to the account identified on the PO distribution. The journal (Source=COST MANAGEMENT) is then reversed in JUL-17, in anticipation of the invoice being processed in the next fiscal year. The accrual program will not include any accrual entries of less than $1,000. You still have the ability to record legitimate accrual entries below that threshold in this fiscal year by entering a manual journal entry by Monday, July 10. For PO receipts to be recorded as expenditures in this fiscal year, the goods/services must be received by the department and entered as a receipt in BEN Financials by Friday, June 30. Please make note that all receipt accrual corrections are to be made to xxx-0001-1-000000-2301-0000-0000, where xxx represents the school/center CNAC. Please remember to reverse any manual receipt accrual corrections in JUL-17.

In order to prepare for year-end and to know what will be accrued for your school/center, you should run the 900.Uninvoiced Receipts Report (with the Minimum Extended Value parameter set to 1,000). This report allows you to review purchase order line, shipment, and distribution information for goods and services that have been receipted in BEN Financials but have not yet been billed. Details on the 900 report are available here: http://www.finance.upenn.edu/ben/benfin/documentation/reportdoc/quickv/900.shtml

Additionally, the 901.Overinvoiced Uninvoiced Receipts Report can be used to view uninvoiced receipts where the quantity already billed is greater than or equal to the quantity ordered. Uninvoiced receipts on the 901 report do not show on the 900 report and are not part of the year-end receipt accrual. The 901 report is available only in the Senior BA Reporting responsibility. Details on the 901 report are available here: http://www.finance.upenn.edu/ben/benfin/documentation/reportdoc/quickv/901.shtml

After reviewing the reports, if you need to have receipts corrected, send an e-mail to apsup@exchange.upenn.edu and include the:

- Purchase Order Number
- PO Line number
- PO Distribution Account (only required if the line has multiple distributions)
- PO Receipt number
- What the Receipted Quantity should be
