Aline Card Changes
July 9th, 2015

Aline Card Users,

You should have been notified by ADP of several changes pertaining to the Aline Cards. These changes will go into effect July 1st and will impact any automatic bill payments as well as money transfers. Please see the information listed below for the updates.

Instant Cards
• Previously permanent cards were issued after 2 payrolls were deposited onto the instant card. Due to the volume of unused permanent cards being issued, ADP has updated the process where the permanent cards are not issued until after 10 actual payroll deposits.

Bill Payment Updates.
• Any current automatic bill payments will end July 1st and Aline Card participants will be required to use the services of “Evolve Money” to set up scheduled payments. Evolve Money’s website can be accessed through www.mycard.adp.com.
• Any scheduled bill payments will not be processed after July 1st, you must set up with Evolve.

Fund Transfers
• As of July 1st, you will not be able to initiate ACH debits/transfers from your Aline card to another account whether your own personal bank account or a biller/retailer.
• You will still be able to make direct payments to your billers/retailers in their stores or website.

Changes to Convenience Checks
• As of July 1st, convenience checks will no longer be used as a self-issued payroll check or to make payments to third parties.
• The check that accompanied your card can only be used if you have activated your card and it has been lost or stolen.
• Disbursements will have access to ADP convenience checks that can be used to payout the entire balance of an inactivated card.
