

Department to Organization Mappings

Over the weekend of July 16, 1999, Payroll, Payroll related applications (i.e. Salary Management) and a number of mainframe administrative applications that used the legacy department codes will be converted to utilize the FinMIS organization code structure.

The functionality for all systems affected by this conversion remains as it was before the conversion. The change only affects the legacy five character department code which is replaced with the four character organization code. There are also several schools/centers that are affected as defined below.

The Schools/Centers that will be changed in the Department to Org conversion are:

<u>Legacy</u>	<u>Legacy Description</u>	<u>New</u>	<u>New Description</u>
54	Medicine	40	School of Medicine
82	VP and Secretary	81	President's Center
97	Oper and Maint	96	Facilities Management

Centers 82 and 97 will be eliminated.

The following table defines the department codes and their corresponding org replacement. All applications that were modified for the Department to Org conversion used the "PAY" mapping tables supplied by the Budget Office. Please call Fran Seidita in the Budget Office if you have any questions.
