AIT project leader approval: Approving manager's signature goes here

Signoff Attached?  Yes     No      Production Emergency?     Yes     No

Move from QA Library:		To Production:	
Changeman Area:	<u>q_PLS</u>	Changeman Area:	<u>p_PLS</u>
Path	<u>\$PLS_TOP</u>	Path	<u>\$PLS_TOP</u>
ChgMan Apprv'd	Items to be promoted to production:		
	Sub directory	Source name	
✓	<u>pISQLSource/packages</u>	<u>WF_TRACKING_A.pkb</u>	
✓	<u>pISQLSource/packages</u>	<u>MAIN_CT4.pkb</u>	
✓	<u>pISQLSource/packages</u>	<u>DB_PLS_CL_RECIPIENT.pkb</u>	
✓	<u>pISQLSource/packages</u>	<u>DB_PLS_CL_RECIPIENT.pks</u>	

**2 – AIT Manager**  
 (a) The manager checks this off when s/he "Approves" the move from QA → PROD in ChangeMan.  
 (b) signs the form at the top & provides any special instructions  
 (c) gives to prod control

**1 – Developer**  
 (a) The developer fills all this out after committing all changes to cvs then  
 (b) gives form to manager for approval

**Special instructions to support software move:**

See scripts to run below. Start step #1 at approximately 5:20 pm on 10/8/06 – wait for explicit request from Estha.

	Comment	Server Name	Script name
(1)	<u>Generate compile script</u>	<u>Southern</u>	<u>\$HOME/bin/generate_prod_compile_script_scr</u>
(2)	<u>Execute compile script</u>	<u>Southern</u>	<u>\$PLS_TOP/control/compile_prod_source_scr</u>
(3)	<u>Run job to bounce WorkFlow server</u>	<u>Southern</u>	<u>ZEKE Job name: ORPSLSWF</u>
(4)			
(5)			
(6)			
(7)			

**3 – Production Control**  
 (a) moves software/scripts to destination directories  
 (b) runs scripts/jobs as requested  
 (c) signs and dates below  
 (d) files form

**Production Control Use ONLY**
